Thursday
11/12/26

11:00 AM - 12:00 PM

Hosted by New Jersey Department of Health Regional Epidemiology Program and Rutgers Health Center for Public Health Workforce Development, this webinar will provide a look at vaccination in New Jersey, from immunization coverage and exemption trends to evolving vaccine policies and programs. Presenters will highlight geographic year-over-year trends in school-age vaccination, review recent changes affecting immunization programs and vaccine access, and examine outbreak of vaccine-preventable disease. This presentation will also cover key considerations for local health departments and school nurses when investigating and responding to vaccine-preventable disease outbreaks, including relevant policies and regulations.
